the Editor's Desk—

te again, always late. If nothing goes wrong (and it probably this "Numisma," the "July-August" number, will be in the s of the subscribers by the fourth week in October. For the past months, we have been soliciting interest in our sale catalogs and little house organ. Our mailing list was last overhauled at the of the '52 A.N.A. sale, and lately appeared as if it needed on again. Within the past few weeks we have sent out some 00 return reply cards, covering all subscribers to the "Numisma- and "Numismatic Scrapbook" Magazines. Undoubtedly, some of ave received at least two cards from us, requesting that you tell writing if you like, or want to receive, our publications. The use, particularly in regard to "Numisma" subscribers (at \$1. y) has been excellent; in fact, much better than we had even pated. If you want to receive this little bi-monthly via first class and be sure of getting our regular sale catalogs, we suggest that subscribe. Judging fom the large number of people who seem will- o go to the trouble of telling us that they really want our publi- ns, we seriously doubt that we can make any exceptions re those ave not as yet written. This even applies to old friends. Our ng list can only be so big, and if we have plenty of customers. reply, we will not be able to make many additions. Please sub- to "Numisma" if you like it; if not, why not tell us so.

are running another small mail sale in this issue. The first one ay-June" number) went over with a bang. These sales will no continue as a regular "Numisma" feature; however, we will s have material offered at fixed prices, for those who prefer to hat way.

aha was our most successful A.N.A. Convention to date. At- nce was really good, all things considered. Everyone seemed , and even the dealers were pleased; what more could anyone One of the highlights of the Convention was an evening spent e Boys Town "PhilaMatic" Center as the guest of Mr. D. O. t, curator. We can only express our sympathy for those who d seeing the collection there and all that goes with it, while in a.

Boys Town is about 10 miles west of the city, and here is located Father Flanagan's famous haven for homeless lads. It is one of the finest equipped institutions of its kind to be found anywhere, the current population consisting of about 900 boys, all of whom are learning a trade and acquiring a high school education.

It is rather difficult to describe the PhilaMatic Center to anyone who has not seen it. The entire building housing the Center is constructed as a vault with the main door opening from a souvenir shop. No other opening into the building is provided so that it houses its own air-conditioning equipment, with full humidification control. The upper floor carries the exhibitions, which are mounted along the outer walls and around a central stair well; there are over 1,100 beautifully constructed display sheets, each 26"x44" and all filled with attractively mounted Currency, Stamps, Vignettes, and other highly interesting items. The basement provides space for heating (and cooling) equipment, offices, working tables, exhibition space (if necessary), and a large vault.

The name PhilaMatic Center is registered, and is derived from the words "philatelic" and "numismatic" and, in use, covers any material that brother Barrett can get under glass. Two display sheets are mounted back-to-back in each swinging steel frame. The Regular U.S. Currency on display at the time of our visit was quite complete and included many really important notes. However, the main difference between this and other displays lies in the free use of 1¢ Proofs, Autographs and other pertinent material, all tastefully collected and mounted by Mr. Barrett.

Space is too limited here to even try to describe what Special Barrett has done. All we can say, is that if you have any interest in U.S. Paper Money, obsolete, the "spending sort," fractional, Confederate—any kind, you haven't even started to collect, until you visit Boys Town PhilaMatic Center.

Enough for now—send in your sale bids early!

THE QUESTION FORUM

We invite our readers to submit any questions or problems relating to U.S. Early American or Canadian Coins, Medals, Tokens, Literature, etc., including Patterns, Restrikes and similar material. The questions of most general interest will be answered in detail here; others will receive written replies on receipt of a stamped self-addressed envelope.

Ques. I notice that 1873 and 1874 Gold Dollars come both with and without LIBERTY on the coronet. What causes this? Which type is rarer in each year? *R. D., Bethesda, Md.*

Ans. We have checked the coins that you sent us (to illustrate the above question) against about two dozen in our stock. From what we can ascertain, the coins without LIBERTY are a little scarcer in 1873, and much commoner in 1874, than the regular type. It appears that the 1874 coins with LIBERTY were made from re-used 1873 obverse dies. Specimens exist with more or less of LIBERTY gone, then with the word entirely gone. The evident explanation is that the hub used for making the obverse dies began to wear down in 1873, by which time it had been in use for some seven years; at some time after 1874 and before 1877 it was retouched, the word LIBERTY being re-engraved thereon and other slight details touched up. The disappearance of LIBERTY reflects the worn state of the hub. It is too soon to say whether any difference of value is involved.

Ques. Do you know of any bank notes issued by any bank in Pottsville, Pa.? I am particularly interested in something from the Safe Deposit Bank, Pottsville. *C. T., Wilmington, Del.*

Ans. Unfortunately, we cannot learn if a Safe Deposit Bank issued notes either privately or as a National Bank. However, we do know that at least five banks of Pottsville, Pa. issued their own currency. They are as follows: BANK OF POTTSVILLE, \$10.; FARMERS BANK OF SCHUYLKILL COUNTY, \$1. to \$500.; GOVERNMENT NATIONAL BANK, \$1. to \$20. (later changed to "Government National Bank" in 1865); MINERS BANK OF POTTSVILLE, \$1. to \$100. (later changed to "Miners National Bank of Pottsville" in 1864, see Grinnell sale, lot 3747, March, 1946); NATIONAL BANK OF PENNSYLVANIA, \$1. to \$100. Notes may also have been issued by the Hazelton Coal Company, Miners Life Insurance and Trust Company and L. F. Whitney, Banker, all of Pottsville.

Ques. I have two of the rare gold Stellas, the 1879 Coiled Hair and 1880 Flowing Hair . . . and have had some offers for them that are as much as \$2,500. apart. What should they bring at auction?

from some collector who really wants them? How many are known who has them? What would I have to pay for a gold 1880 Coiled ? K. N., Balboa Island, Calif.

ns. The gold Stellas were originally issued in sets with the responding Goloid and Goloid Metric dollars. From all that can be ned, 18 sets of "Barber" design (AW 1575, 1598 and 1606) originally issued in 1879, three of them with the famous Metric added. Six hundred sets were restruck from the some dies the wing year. (We believe that the "weak obverse" '79 Flowing Stellos showing file like marks across Liberty's face are theikes.) Of the sets of "Morgon" type, which included the 1879 ed Hair Stello, about ten were made (AW 1578, 1602 and 1610). none were restruck. There were between 12 and 15 "Borber" (with the Flowing Hair Stello) made with the date 1880, and at 8 or 10 "Morgon" sets (Coiled Hair Stello) of the same date. ectively, these are AW 1630-1636-1642 and AW 1633-1639-5. No restrikes are known to have been made of any of these. ould be impossible to enumerate the owners of the various Stellos, good many of them are owned by general collectors (who pretend they are not Patterns), or are impounded in bank vaults, and e people appear unwilling to have their holdings known. What o men of any of the three rorer Stellos would bring at legitimate ion or would "sell" at fixed prices is not easy to predict, porarily at auction today. The last record for the "set" of four pieces, os '79 and '80 pairs, was made on Feb. 25, 1954, in Coiro, at ole of the Forouk collection by the Egyptian government. Lot 322 sted of the two 1879 Stellos in "brilliant Proof." They sold for Egyption Pounds, or roughly (all things being equal) \$1,635.00. following lot, No. 323, contained both 1880 Stellos, also "bril- Proof." This one brought 670 Pounds, or \$2,010.00. Since uk sole prices are generally "upset figures," we estimate that n, nice Proofs should sell today as follows: 1879 Coiled Hair \$1,500. to \$2,000.; 1880 Flowing Hair from \$1,350. to 50.; 1880 Coiled Hair from \$1,650. to \$2,150. A fair retail for the set of four coins would approximate \$6,250., or even as n as \$7,000., providing that you had the right customer.
